in the fall of 2009 with the publication of her 1 national bestselling memoir sarah palin had the privilege of meeting thousands of everyday americans on her extraordinary 35 city book tour inspired by these encounters her new book america by heart reflections on family faith and flag celebrates the enduring strengths and virtues that have made this country great framed by her strong belief in the importance of family faith and patriotism the book ranges widely over american history culture and current affairs and reflects on the key values both national and spiritual that have been such a profound part of governor palin s life and continue to inform her vision of america s future written in her own refreshingly candid voice america by heart will include selections from classic and contemporary readings that have moved her from the nation s founding documents to great speeches sermons letters literature and poetry biography and even some of her favorite songs and movies here too are portraits of some of the extraordinary men and women she admires and who embody her deep love of country her strong rootedness in faith and her profound love and appreciation of family she will also draw from personal experience to amplify these timely and timeless themes themes that are sure to inspire her numerous fans and readers all across the country

text articulates the role of nursing in the u s and its relationship with society its contribution to health care and its obligation to those receiving nursing care defines nursing identifies the scope of its practice and describes the profession s knowledge base and ways of regulation previous edition c1995 softcover dnlm philosophy nursing

an engaging study of the dilemmas faced by american nursing which examines the ideology practice and efforts at reform of both trained and untrained nurses in the years between

1850 and 1945 ordered to care provides an overall history of nursing's development and places that growth within the context of topical questions raised by women's history and the social history of health care building upon extensive use of primary and quantitative data the author creates a collective portrait of nursing from the work of the individual nurse to the political efforts of its organizations Dr. Reverby contends that nursing's contemporary difficulties are caused by its historical obligation to care in a society that refuses to value caring she examines the historical consequences of this critical dilemma and concludes with a discussion of why nursing will have to move beyond its obligation to care and what the implications of this change would be for all of us

named an outstanding academic title for 2001 by choice why turn to the past when attempting to build nursing's future to make good decisions in planning nursing's future in the context of our complex health care system nurses must know the history of the actions being considered the identities and points of view of the major players and all the stakes that are at risk these are the lessons of history from the introduction this book presents nursing history in the context of problems and issues that persist to this day issues such as professional autonomy working conditions relationships with other health professionals appropriate knowledge for education and licensure gender class and race are traced through the stories told in this volume each chapter provides a piece of the puzzle that is nursing the editors all noted nurse historians and educators have carefully made selections from the best that has been published in the nursing and health care literature

American nurses have changed in the last generation this transformation is manifested in their education clinical responsibility and in the huge increase in their numbers relative to the population during recent decades the scope of nurses practice expanded to include many new responsibilities including work formerly in the province of physicians as well as entirely new functions today the term nurse encompasses a wider and more complex spectrum of individual academic attainment and practice than was true in 1950 in the 1980s nurses began to be much better paid relative to previous decades and to other workers taken together all these factors add up to new and different life style and career prospects associated with nursing as health care systems organize to emphasize care in the community the home and other alternative settings the centrality of the hospital to the system and to nursing will probably be diminished until the publication of this book no single secondary source reported on this highly eventful era in nursing a rapidly growing professional literature and a barrage of commissioned studies of nursing however provided ample material for reconsideration and analysis of the linkages between nursing and hospitals this book based on voluminous government and professional studies of the hospital nursing problem commissioned during the last fifty years explores these criticisms highlights persisting themes and shows how today's concerns relate to those of the recent past

biographies of American nurses containing mostly information on the biographee professional life vol 1 contains persons born before 1890 or deceased vol 2 contains persons born in 1915 or before or deceased

this book contains 15 national standards of practice and professional performance that describe the who what where why and how of generalist and advanced practice nursing regardless of level setting or specialty every nurse should practice by these standards
